

Cooper & Wilcock Ltd.

Vertical Transportation Consultants

Bio for Donald G. Cooper, B.A.Sc.P.Eng

General

Don Cooper has spent most of his career with HH Angus & Associates Ltd., a Canadian consulting engineering company, headquartered in Toronto. He joined the company in 1968, and became a partner in 1982. While the majority of his time was spent in the Toronto office, he had two five year postings to the London office (1972-1977 and 2000--2005). Majority of his career has been spent in the vertical transportation group, responsible for a full range of major projects in Canada and internationally including the Middle East.

In 2007 he became President of Cooper & Wilcock Ltd. 208 Gilwood Park Drive Penetanguishene, Canada, an international vertical transportation consultant firm.
